The A-winner will be the team with the best record following the round robin. After a team's first win they are to complete a skills competition where each team member draws the button with brushers and a target. The total of the best three will be their score. The skills competition will be used to determine the A-winner in the case of a three-way tie.

If the win-loss record of the two teams playing in the B final is the same, hammer will be determined by a coin toss. If one team has a better win-loss record than the other, they are awarded hammer in the B final.
